

## Comparing Fractions with the Same Numerator

Draw 2 pictures of the same shape. Divide the shapes into equal parts based on the denominators given. Shade in parts of the whole based on the numerators given. Compare the fractions.

$\frac{6}{8} > \frac{6}{10}$ 	$\frac{4}{6} < \frac{4}{8}$
$\frac{2}{10} < \frac{2}{4}$	$\frac{3}{6} < \frac{3}{8}$
$\frac{1}{2} < \frac{1}{4}$	$\frac{3}{4} < \frac{3}{6}$
$\frac{2}{6} < \frac{2}{8}$	$\frac{4}{6} < \frac{4}{10}$
