

# Summer Learning is Out of this WORLD!

## Daily Routines:

- ★ Each day I will:
  - Reading: Read a text of your choice for 20 minutes each day.
  - Writing: Keep a daily journal. Writing an entry about a topic of your choice.
  - Math: Practice addition, subtraction, multiplication, and division math facts for 10 minutes each day! Create or print math fact flashcards.

## 3rd Grade Choice Board

Each day I will choose ONE activity in **Reading & Writing**, **Math** and a **Choice Area**.

Reading & Writing	Math	Choice Area
Create a crossword puzzle with vocabulary words from a book or text you are reading. Help a family member solve your puzzle.	Ask a family member to tell you 3 random numbers. Use the numbers to create as many 3-digit numbers as you can. Write each 3-digit number in word form.	Design a poster about respect. Include words, quotes, and images to encourage others to be respectful.
Watch or recall a favorite fictional movie. Retell the story. Create a story arch detailing the characters, setting, events, problem, and solution. Share your story arc with a family member.	Look at the food labels on items in your house. Find each item's volume (ounce, milliliter, liter, gallon, etc.) within the container. If the food item has been opened and used, estimate how much of the item is left in the container.	Practice mindfulness by following these steps: Sit tall in a chair. Close your eyes. Take 3 deep breaths. Slowly count to 10. Squeeze your hands together and imagine a happy memory. Release your hands. Take 3 more deep breaths. Open your eyes and feel more relaxed!
Design a new cover for a book you are reading. Write a book recommendation for this book, too. Share your cover and book recommendation with a friend.	Find all of the clocks in your home. Name which clocks are analog and which are digital. Make sure each clock reads the correct time.	What's cooking? With an adult, find a recipe you can make at home. Read the recipe, make the recipe, and enjoy the yummy food!
Write 10 words from a book or text you are reading on a family member's back and ask them to guess the words you wrote. Tell them the meaning of each word.	Create a grocery list of items you like to eat. Predict the value of each item and write the amount next to each item on your list. Find the total cost of the items on your grocery list based on your predictions.	What does it mean to be proud? Write three reasons why you are proud of yourself. Draw a picture of a moment in your life you felt very proud to be YOU!
Make a video of you reading your favorite picture book. Make sure to include why the book is one of your favorites. Share the video with someone who would enjoy it.	Design a game board for your family to play that practices multiplication facts. Write the directions and rules. Have fun playing the game together!	Create and write a thank you card for an essential worker (police officer, nurse, doctor, mail carrier, etc.) Be sure to include many specific reasons why you are thankful. Give or mail your card to an essential worker.
Write 10 words from your reading with a prefix or suffix. For each word, circle the prefix or suffix and underline the base word.	Take a nature walk around where you live. Collect leaves, flowers, rocks, etc. Sort the objects you collected and create a bar graph of your findings.	Create a list of fun things you can do when you feel bored. Design a schedule of those fun activities for you and your family to do together.
